OpenText™ Axcelerate™

Gain the advantage with the industry's most powerful discovery analytics—delivered with unprecedented ease-of-use.

Power and simplicity. Combined.

> "No other platform matches Axcelerate's combination of power and usability for high-stakes review."
>
> **- Bennett Borden, Drinker Biddle & Reath LLP**

Early insights

OpenText Axcelerate helps you find the documents that will make or break your case, sooner and more reliably. Utilize powerful search, categorization and analytics with greater ease than ever before—to uncover key facts, validate collection decisions, identify risks, evaluate review implications and formulate winning strategies. Axcelerate's powerful capabilities amplify your legal skills.

Review efficiency

With Axcelerate, legal practitioners review what matters—faster and more accurately. From continuous machine learning, to End-of-Branch email analysis, to auto-redactions and streamlined case management, the entire platform is engineered to support quicker and better results. Axcelerate helps legal teams achieve new heights of document review accuracy, consistency and productivity.
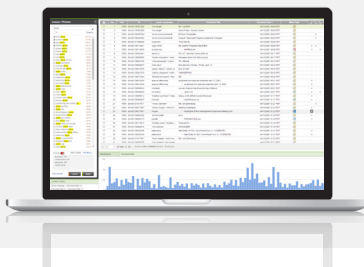

Confidence and control

Take the wheel, without hesitation. Axcelerate provides unparalleled transparency into your review workflow—anticipating your destination, showing your status at every stage along the way and helping you know when you've arrived. Interactive, visualized displays ensure a more confident review experience and provide greater control over your costs, timelines and strategy.

Consumer-grade interface

Axcelerate brings key technologies and design principles used in leading consumer web applications to the realm of eDiscovery, for a user experience that is truly second to none.

Browser-agnostic viewer

Set up your review team instantly; there is nothing to download or install. Axcelerate's HTML5 viewer works in any browser with hi-fidelity rendering, efficient pre-caching and Smart Tagging controls.
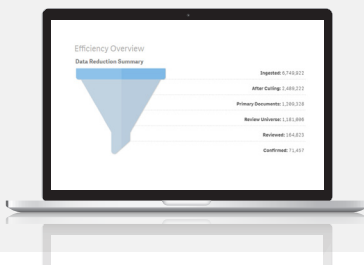

Communications mapping

Hypergraph in Axcelerate elegantly displays email connections, comfortably scaling to millions of records. Analyze parties, domains, activity levels and timeframes around all the communications that interest you.

End-of-branch email analysis

Know what's unique, know what's missing. Axcelerate lets you limit review to only the most inclusive communications and calls out any missing messages, for dramatic time savings with no external processing or additional cost.
BI Dashboards

Monitor and share review progress with interactive dashboards that update dynamically. Track project data down to the individual coding decisions or look across your entire case portfolio to see aggregated trends and efficiencies.
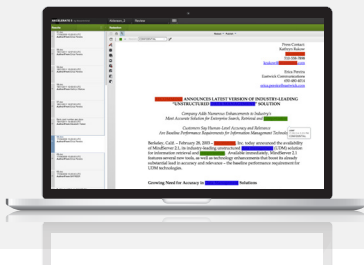

Continuous machine learning

Axcelerate's proprietary text analytics empower its best-in-industry TAR functionality. The Predictive Coding Dashboard shows your progress every step of the way.

Smart Redactions

Axcelerate's unparalleled redactions toolset eliminates the need for costly pre-imaging. It even finds and redacts search terms, Social Security numbers, dates of birth and other PII across entire data sets automatically.

A full range of services

On-demand, on-premises or self-service cloud—Axcelerate fits organizations and matters of all sizes. This is combined with competitive pricing and world-class services available 24/7 from an expert team and certified partners worldwide.
