

## OpenText™ Brava!™ Enterprise Supported Formats

This list represents the current known, tested formats supported by Brava! Enterprise. On a Windows operating system, except where noted, Brava! uses 64-bit technology and typically supports any format with access to a Windows-based application that supports the print canonical verb. Linux Publishing Agent compatibility is noted where applicable.

Please contact us with any format questions.

| 2D CAD FORMATS   | EXTENSION           | LINUX SUPPORT |
|--|---------------------|---------------|
| 906/907 Plot File  | 906/907             |               |
| Autodesk AutoCAD Drawing (through version 2018)                    | DWG                 | ✓             |
| Autodesk AutoCAD DXF (through version 2018)                        | DXF                 | ✓             |
| AutoCAD Inventor (versions 5.3 - 2015) <sup>1 9</sup>              | IDW                 |               |
| AutoCAD Web Format (through version 2018)                          | DWF, DWFx           |               |
| Bentley Tiled Group 4 Raster                                       | TG4                 | ✓             |
| CADKEY   | PRT                 |               |
| Computer Graphics Metafile   | CGM                 | ✓             |
| GTX Group III, IV  | G3, G4              |               |
| GTX Runlength  | RNL                 |               |
| HP CAD ME10 (through version 13)                                   | CMI, MI             |               |
| HPGL Plot File   | 000, HGL, PLT, HPGL | ✓             |
| Initial Graphics Exchange Specification (version 5.2) <sup>9</sup> | IGS, IGES           |               |
| Intergraph Group IV  | CIT                 | ✓             |
| Intergraph Runlength   | RLE                 |               |
| IronCAD drawing – embedded PDF                                     | ICD                 | ✓             |
| MicroStation Drawing (through version 8.11, including XM, V8i)     | DGN                 | ✓             |
| SOLIDWORKS Drawing (versions 97 - 2014) <sup>9</sup>               | SLDDRW              |               |

VIDEO FORMATS <sup>8</sup>

Brava! Enterprise views any video format supported by the web browser being used.

<sup>1</sup> [Requires Free Inventor View](#)

<sup>2</sup> 3D support requires use of the 3D ActiveX client or 3D HTML client and is available at an additional cost

<sup>3</sup> Format for use within the 3D ActiveX client ONLY (not supported by the 3D HTML client)

<sup>4</sup> Format for use within the 3D HTML client ONLY (not supported by the 3D ActiveX client)

<sup>5</sup> Format is provided with no support due to library limitation

<sup>6</sup> Format is supported using a licensed copy of 3<sup>rd</sup> party application installed on Job Processor

<sup>7</sup> Formats in this list require a third-party library available at an additional cost

<sup>8</sup> Video support requires the Brava! Enterprise HTML video client (included with Brava! Enterprise)

<sup>9</sup> 64-bit driver is not available

<sup>10</sup> Linux MSG support via OTF2DL filter.
